BONNEFOY LOÏC

ENGINEERING STUDENT AT INP ENSEEIHT

CONTACT

+33 6 69 76 51 91

loic.bonnefoy@etu.inp-n7.fr

Toulouse

lbonnefoy.github.io/myportfolio/

SKILLS

- **Programming** : Python, C, Arduino.
- **Control engineering**: Arduino-based system control, pressure control system
- **Design and experimentation** : prototyping, data acquisition and analysis
- **Software** : Excel, Scilab, Autodesk Inventor, Regressi
- **Driver's Licence, own car**

LANGUAGES

- **French** : Native
- **English** : B2 level
- **Spanish** : A2 level

INTERESTS

- **Motorsport and Formula 1** : following competitions
- **Climbing** : bouldering and lead climbing for 5 years
- **Music** : bass player in a band
- **Cooking and baking**

PROFILE

Engineering student at INP ENSEEIHT with a strong interest in mechatronics, robotics and control engineering. I aim to contribute to the development of innovative and sustainable engineering solutions to achieve a better future.

EDUCATION AND PROJECTS

Engineering studies in Electronics and Electrical Engineering 2026 - Present

INP ENSEEIHT | Toulouse, France

Preparatory classes for engineering schools (CPGE) 2024 - 2026

Lycée Carnot | Dijon, France

Design of a nuclear waste handling robot (TIPE project) 2025 - 2026

Lycée Carnot | Dijon, France

- Designed and prototyped a robot inspired by an existing industrial system as part of a two-person team.
- Modelled and tested a pneumatic anchoring and locomotion mechanism.
- Implemented system control and automation, followed by testing and prototype improvements.

WORK EXPERIENCE

La chèvre ceronnaise August 2026

Seasonal worker

- Sold products at local markets

La chèvre ceronnaise Summer 2024, Summer 2025

Seasonal worker

- Assisted with cheese production
- Sold products at local markets
- Assisted with goat milking
